## **TRAFFIC ADVISORY – TRAFFIC DETOUR/DELAYS**

National Grid will be installing a Gas Main at the following intersections beginning Monday morning, October 23, 2017 at 8:00 Am

### **Water Street at Pearl Street – Detour Pearl Street at West Main Street – Detour Factory Street at Huntington Street - Delays**

Gas main installation will be done at one intersection at a time. During this period, detours will be in place to curb the volume of traffic over the pearl street bridge. Bridge will be reduced to one-lane, flagged traffic periodically.

Motorists are urged to use extreme caution when entering these work zones and obey all temporary traffic control devices. Also finding alternative routes may be beneficial to traffic and pace of the work being preformed.

The work is expected to be completed by December 2018.

ANY QUESTIONS CAN BE DIRECTED TO THE ENGINEERING DEPARTMENT AT  
785-7740
