

-Street Reconstruction-

Permanent Pavement Replacement

1. Any work, which involves the excavation or pavement cut on a public street within the City limits of Watertown, New York, shall be by permit.
2. Street cut permits are obtained at the City Engineer's Office City Hall, 245 Washington Street, Room 305.
3. All cuts shall be done in a manner to provide straight lines and clean edge surfaces.
4. All excess crushed stone and other repair materials shall be removed immediately upon completion of the job.
5. Lawn areas damaged during the work shall be restored with topsoil and seeding, as necessary.
6. The work area shall be swept clean and left in a safe and sanitary condition.
