Appendix A: Checklist Instructions

- Cover Letter:** The applicant must submit a detailed cover letter describing what the applicant seeks to establish with the proposed Zone Change (e.g. the intended future use of the property) and should include any other information that will aid the Planning Board and City Council in comprehending the request. The cover letter should also address whether the proposed rezoning is consistent with the City of Watertown's adopted Comprehensive Plan, and if it is not, the rationale for why the Planning Board and City Council should grant the request. A digital version of the Comprehensive Plan is available at: <https://www.watertown-ny.gov/DocumentView.asp?DID=1840>
- Tax Map:** A copy of the City Tax Map, with the subject parcel highlighted. Tax maps are accessible using the following website: <https://www.watertown-ny.gov/imo/search.aspx>. Upon entering the required information, the search engine will direct the user to the Parcel Data page for their property. A link to the appropriate tax map will appear on the right hand side of the Parcel Data page.
- Drawing:** If applicable, the applicant should submit a sketch/site plan of the proposed development or construction that is prompting the Zone Change Request.
- SEQR:** The applicant must submit a completed Part I of a SEQR Short Environmental Assessment Form (EAF). The New York State Department of Environmental Conservation (DEC) offers an online mapping tool that assists in completing the SEQR form. It is available at the following website: <https://giservices.dec.ny.gov/eafmapper/>.
- Description:** A legal description of the boundaries of the subject parcel, measured in angles, bearings and distances. Typically, a property deed will contain such a description.
- Written Support:** While not required, if the applicant has the support of neighboring property owners, the applicant should include their written letters of support as supplemental materials with the application.
- Info for PDDs:** If an applicant is requesting to rezone any land as part of a Planned Development District, the application must contain all the additional data stipulated in Section 310-12 of the Zoning Ordinance. This section of Code is available as part of the City's online Code Book at: <https://www.ecode360.com/10498649>.
- Required Sets:** The items in the checklist (other than the application fee) collectively make up a "set." The applicant is responsible for submitting 15 complete collated "sets" to the City Planning Department. If the application requires Jefferson County Planning Board review, then the applicant must submit 16 "sets." Planning Staff will inform the applicant if this is necessary.
- Submittal Instructions:** Submit all required materials to:
Michael A. Lumbis, Planning and Community Development Director
City of Watertown
245 Washington Street, Room 305
Watertown, NY 13601
- Meeting Information:** The Planning Board normally meets at 3:00 p.m. on the first Tuesday of every month in Council Chambers at City Hall, 245 Washington Street. The application deadline is 14 days prior to the scheduled meeting date. Planning Board action does not represent final approval, as the Planning Board only votes to make a recommendation to City Council, which holds the sole authority to grant a Zone Change. Zone Change Requests carry a legal requirement for the City Council to hold a Public Hearing prior to voting on the Ordinance.
- Occasionally, due to holidays or other reasons, meetings may occur on other dates and/or times. The City will announce any changes to meeting dates in advance on its website at www.watertown-ny.gov. The Zone Change application process typically takes six-to-eight weeks.

Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept “Have my responses been reasonable considering the scale and context of the proposed action?”

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing:		
a. public / private water supplies?		
b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?

Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
